

### Lake Moana nui wetland restoration

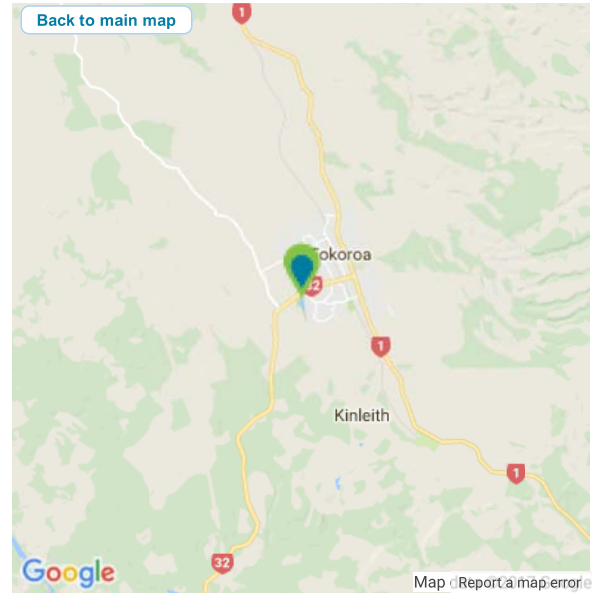

South Waikato Environmental Initiatives - Greg Shaw  
07 885 0340  
greg.shaw@southwaikato.govt.nz

This project aims to improve the biodiversity linkages between the Waikato River and its tributaries and to improve the quality of the water from the Matarawa Stream by reducing silt and the inflow of nutrients to the waterway.

This will be achieved through the creation of a silt detention pond and enhanced wetland planting to protect these area as the water enters Lake Moananui. This is a Waikato River Authority funded project (WRA 14-039).
