

Waikato Regional Council
Thames-Coromandel General Constituency
Electing 1 Regional Councillor

Liam KEDZLIE

My principal place of residence is in the Thames-Coromandel General Constituency area.

I'm a fresh new voice for the Coromandel in Hamilton.

I stand for a healthy environment, respect for our community values, a thriving local economy, and the integrity of our Coromandel lifestyle.

As a business owner on the Coromandel, a board member of Trust Waikato, with a law degree and career background in policy and research, I will bring a fresh, professional perspective to the role as your regional Councillor.

Regional Council must focus on core resource management activities; keep rates affordable; and enable sustainable economic development.

At the heart of this is water quality; both freshwater and coastal. Its careful management is central to our daily economic, community and conservation activities.

The Regional Transport Plan needs refreshing to better reflect the Coromandel, with provision for public transport and improvement of our vital highway network.

These are core to the Coromandel's competitive advantage, quality of life and future environmental integrity.
