

Waikato Regional Council
Thames-Coromandel General Constituency
Electing 1 Regional Councillor

Denis TEGG

Independent

My principal place of residence is in the Thames-Coromandel General Constituency area.

As a (retired) lawyer and community campaigner I have the knowledge experience and vision to serve as your regional councillor for Thames-Coromandel.

Thames-Coromandel already faces daunting challenges. Coastal flooding, droughts, and destructive rainstorms are occurring more frequently. Numerous species face extinction. Many rivers are unswimmable and unsafe for drinking. These issues already adversely impact our wellbeing and economy and will severely worsen unless we act now. They are core regional council responsibilities and will be my focus.

Our children and grandchildren will not inherit a prosperous and livable planet unless regional council and central/local government lead with vigorous immediate action.

I have lived in Thames for 45 years. 20 years ago, I proposed a law which still protects many beaches and forests from mining. The successful Thames public bus service was my brainchild. I coaxed TCDC into addressing coastal flooding. Imagine what I can achieve as your regional councillor.
