

Farm Environment Plans – Formulation and Implementation

Ian Millner, Rural Directions - Farm systems and land management
expert for Federated Farmers

Grant Eccles, Tonkin + Taylor – Planning Expert for Federated Farmers

16 September 2019

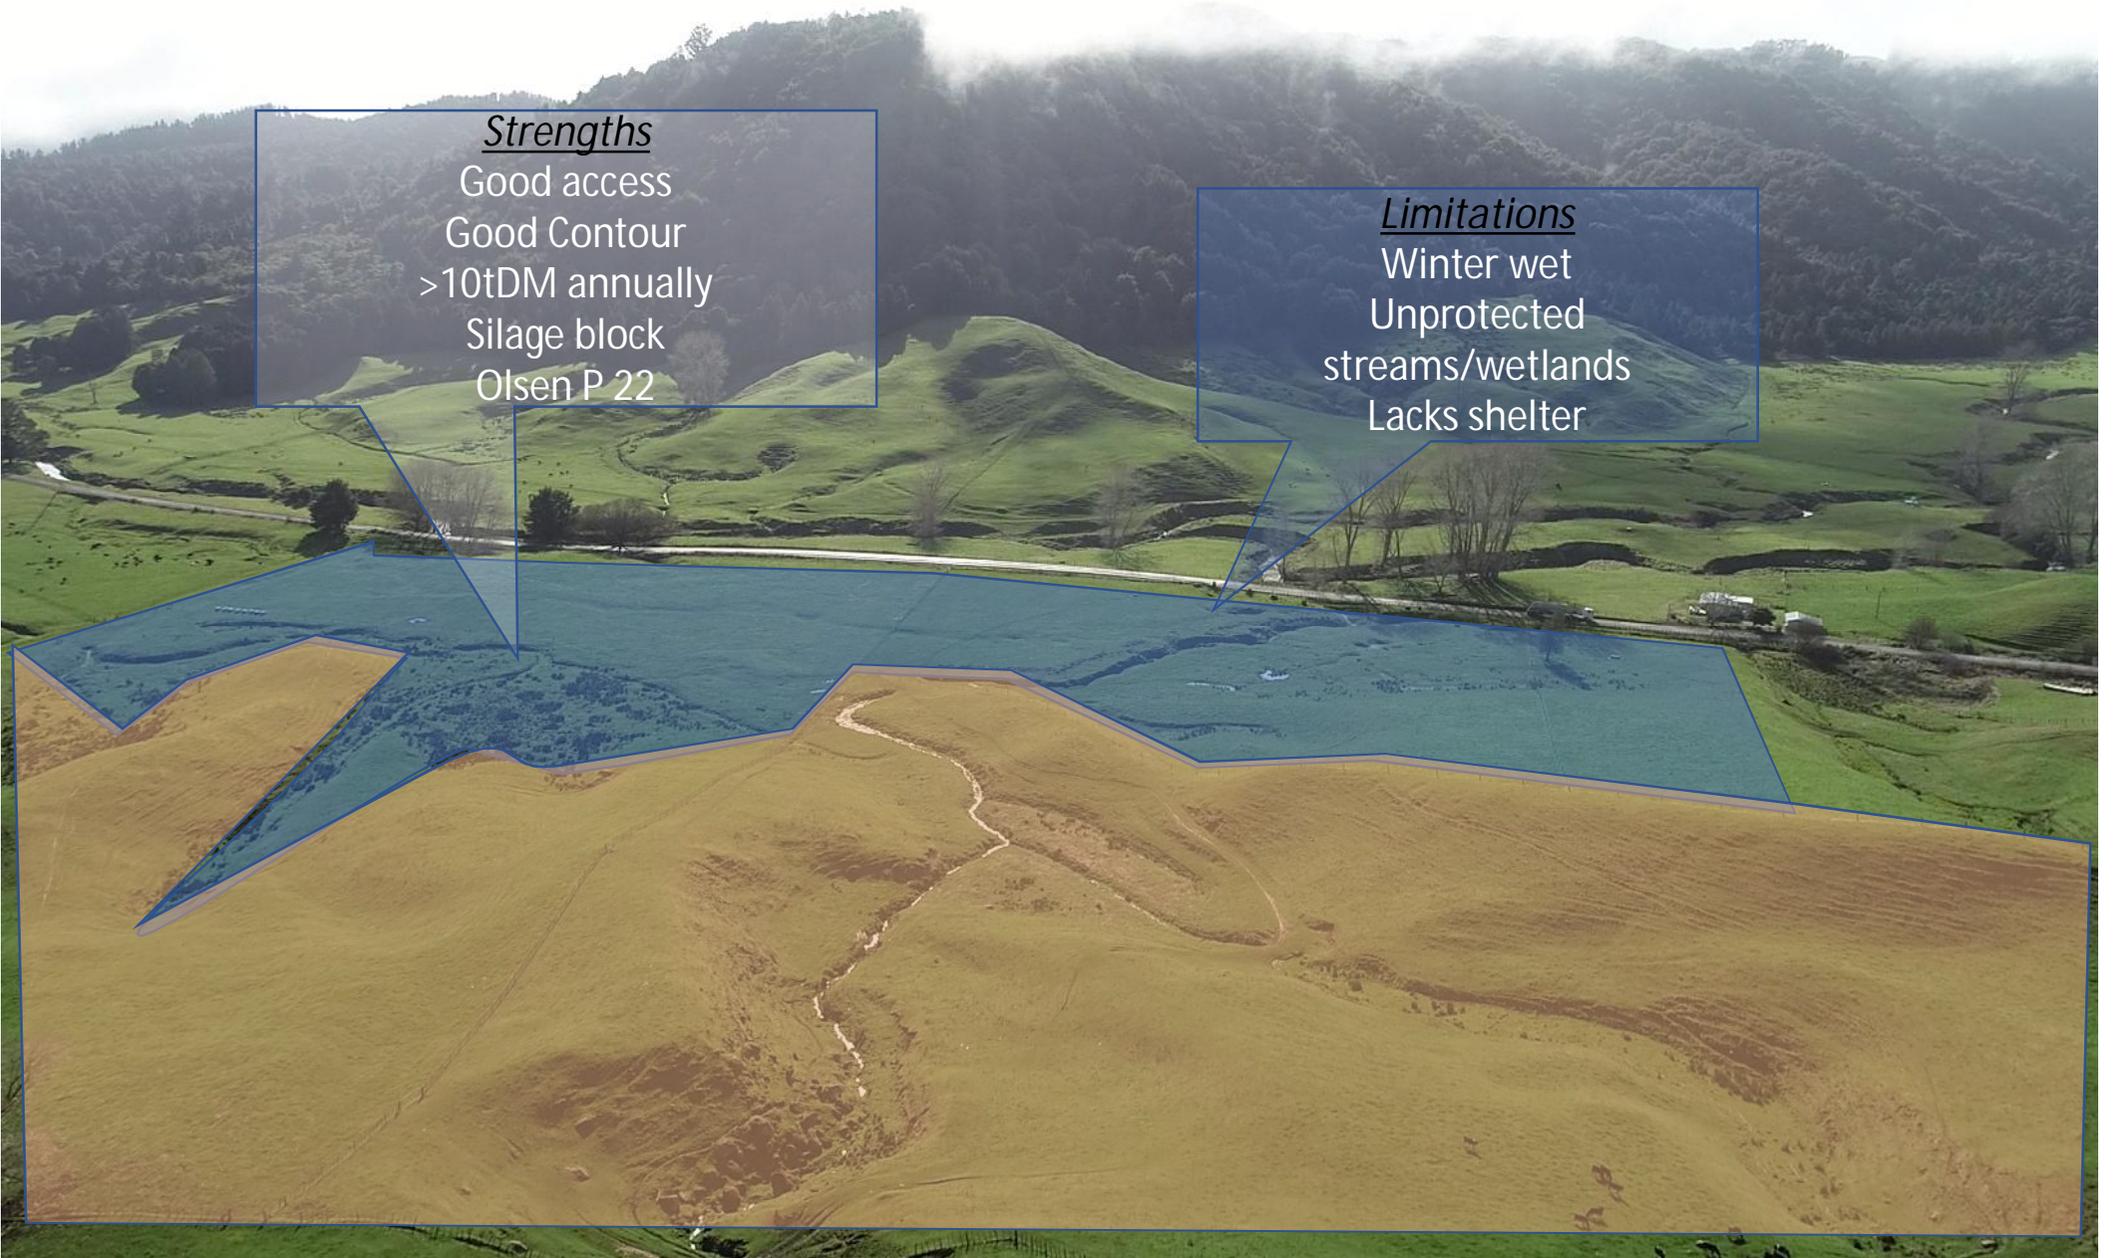

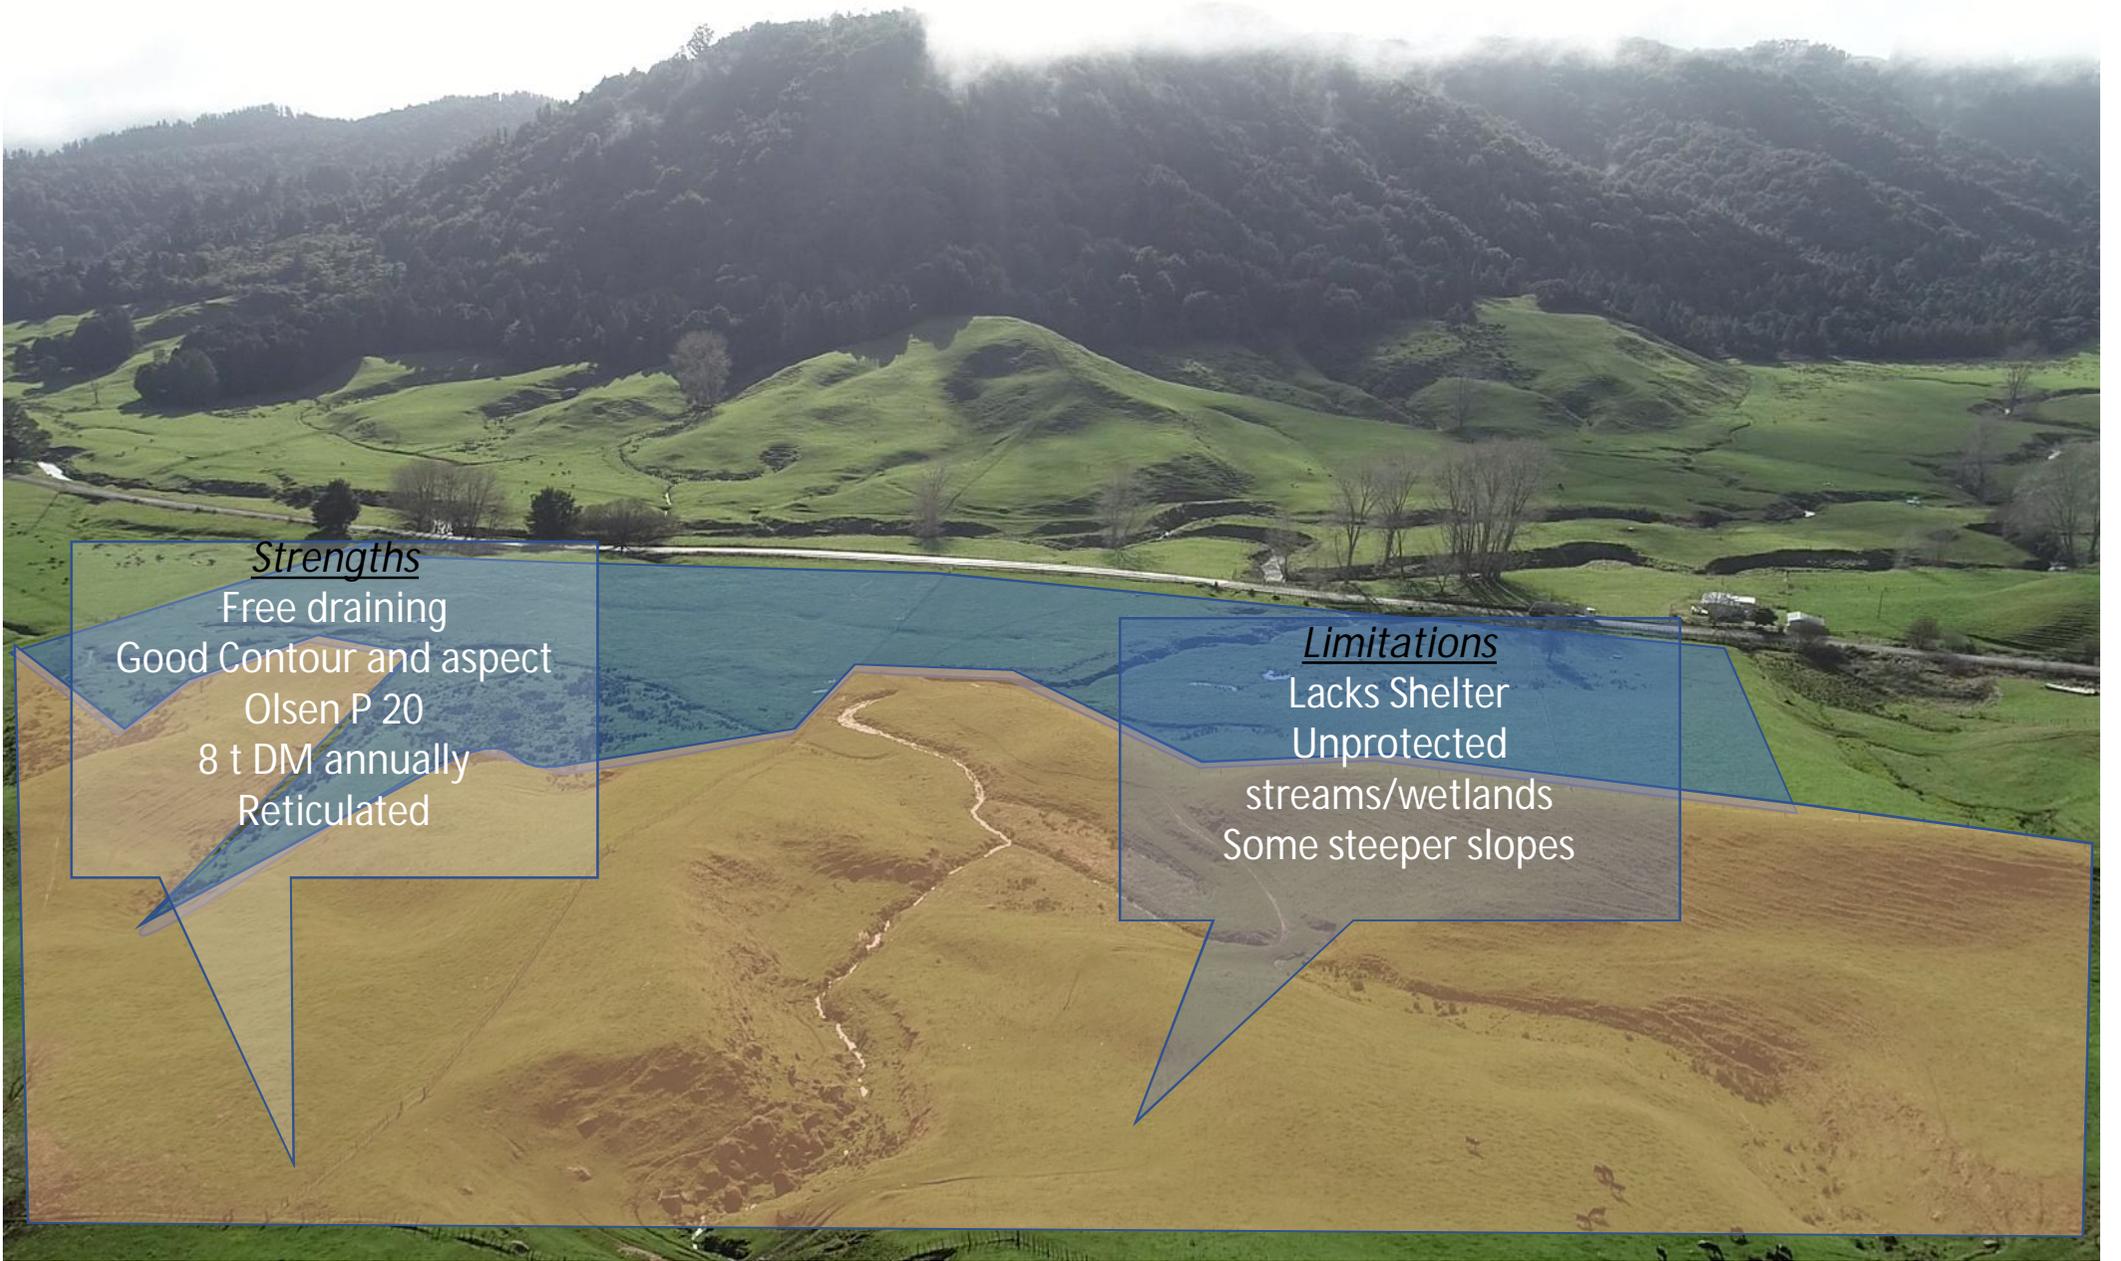

Strengths

Good access
Good Contour
>10tDM annually
Silage block
Olsen P 22

Limitations

Winter wet
Unprotected
streams/wetlands
Lacks shelter

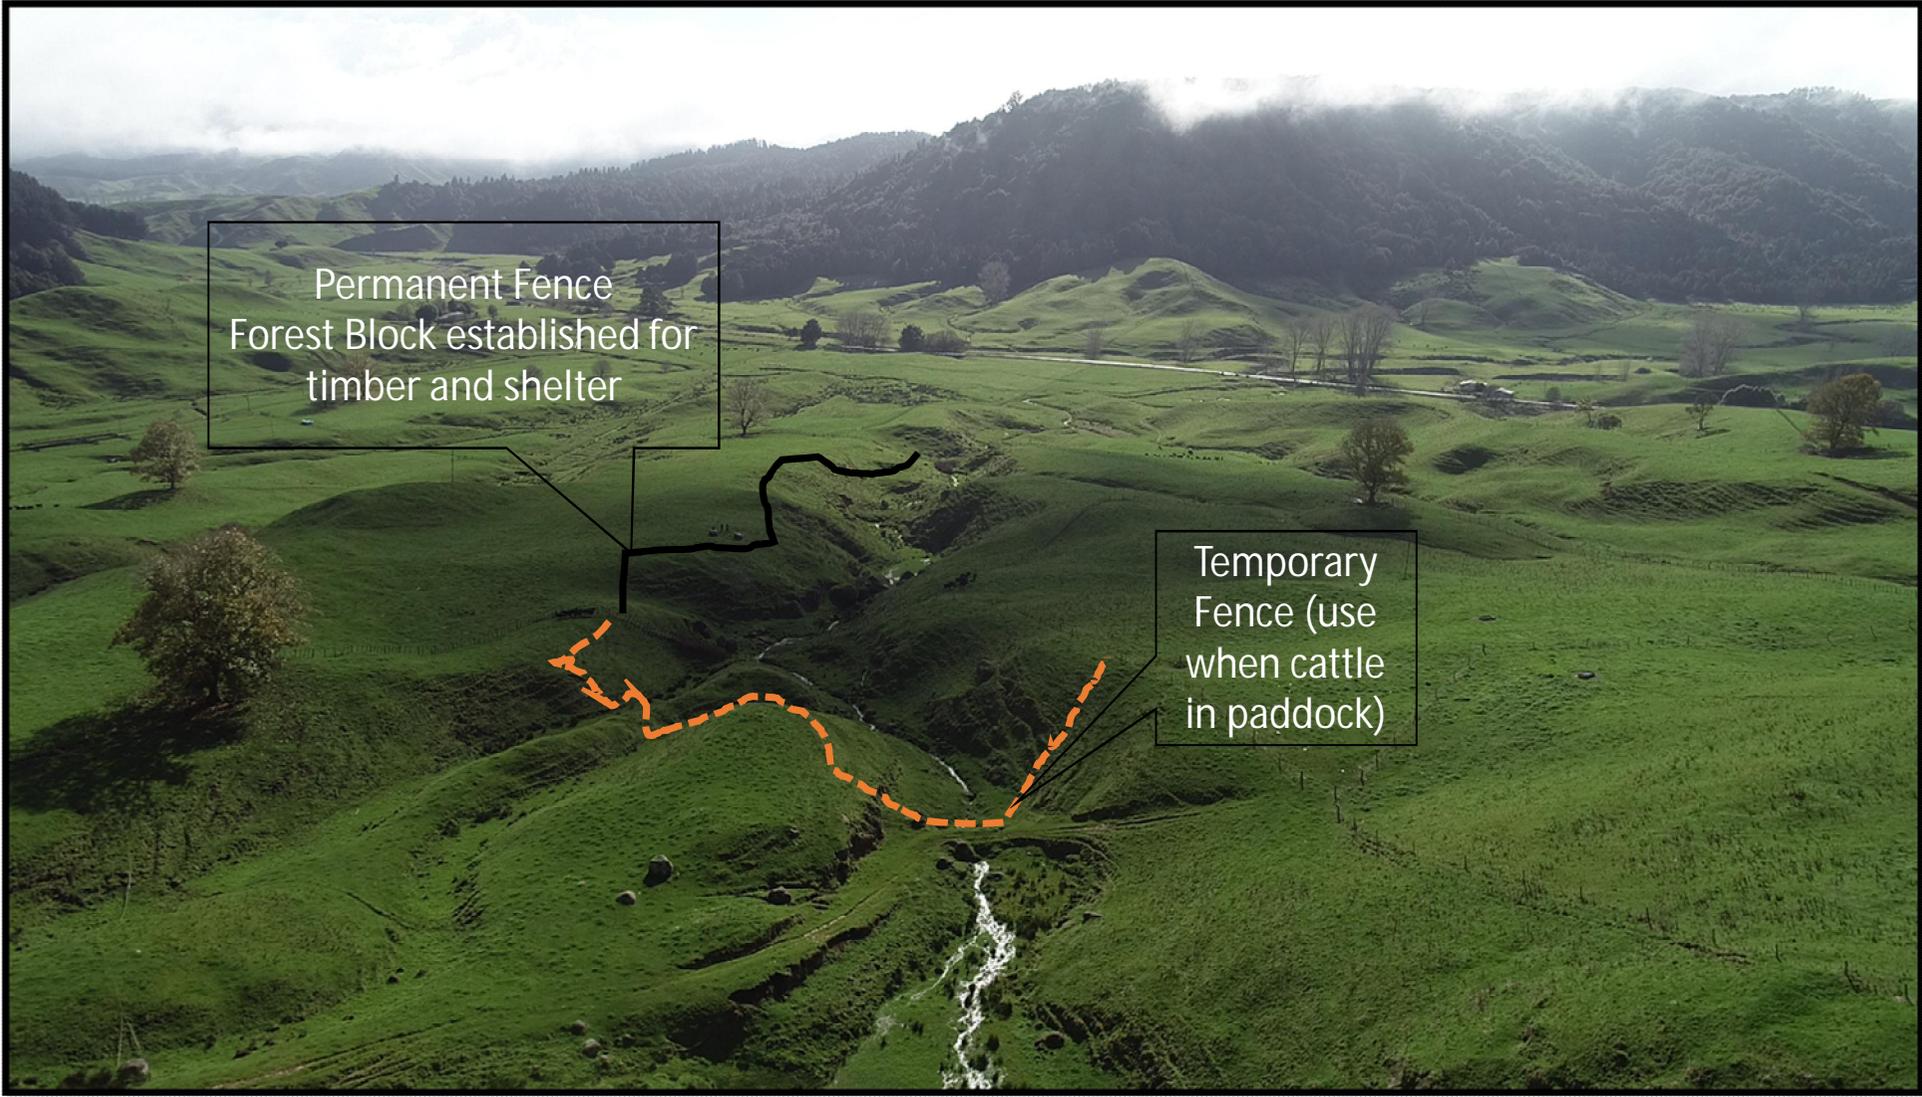

Strengths

Free draining
Good Contour and aspect
Olsen P 20
8 t DM annually
Reticulated

Limitations

Lacks Shelter
Unprotected
streams/wetlands
Some steeper slopes

Permanent Fence
Forest Block established for
timber and shelter

Temporary
Fence (use
when cattle
in paddock)

Upgrade
fence and
control
goats

Establish
Forest

Outcome	Action	Responsibility	date	Review
Stock Exclusion	Permanent fence PDK 1	Manager	July 2020	
	Temporary Fence PDK 2	Manager	Ongoing	
	Goat proof fence PDK 3	Manager	April 2021	
Erosion Control	Establish P radiata 1000SPH within newly fenced area PDK 3	Manager	August 2021	
	Establish Broadleaf Forest in newly fenced creek PDK (PDK1)	Manager	August 2020	

Outcome	Action	Responsibility	date	Review
Stock Exclusion	Permanent fence PDK 1	Manager	July 2020	complete
	Temporary Fence PDK 2 when cattle in paddock	Manager	Ongoing	Failed – recent cattle prints in/near creek
	Goat proof fence PDK 3	Manager	April 2021	Partial
Erosion Control	Establish P radiata 1000SPH within newly fenced area PDK 3	Manager	August 2021	Establishment not successful – combination dry spring and goats
	Establish Broadleaf Forest in newly fenced creek PDK (PDK1)	Manager	August 2020	Complete

FEP Consent – What's in it?

- Generally in accordance with FEP entitled x dated x prepared by x
- Keep copy of certified FEP on farm and available to farm staff at all times
- S128 review
- Duration of consent

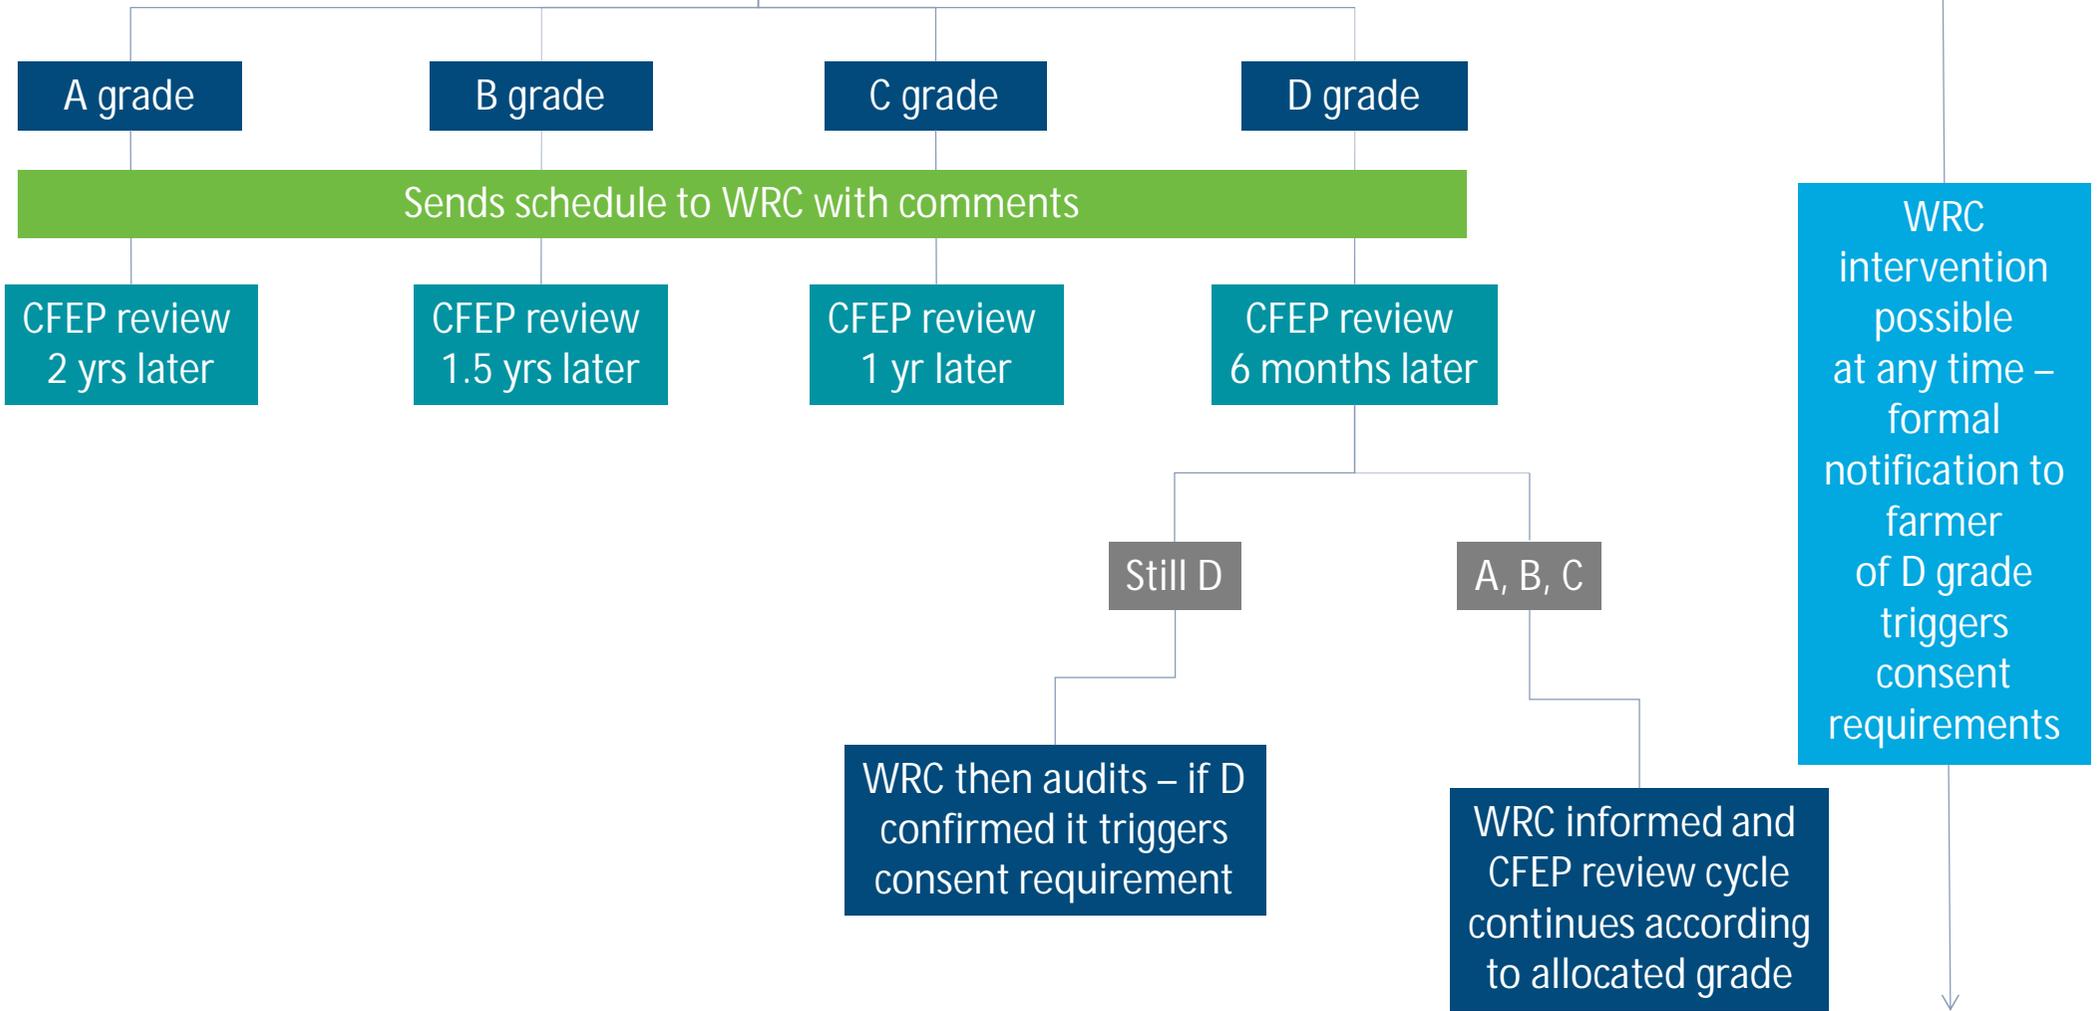

FEP Consent – D grade

- Generally in accordance with FEP entitled x dated x prepared by x
- Keep copy of certified FEP on farm and available to farm staff at all times
- Relevant actions from FEP and timeframes
- More stringent reporting?
- Performance Bond?
- S128 review

Farm Sale – What then?

- FEP is either a P.A. or a land use consent - runs with land
- Does new owner need a new FEP? Maybe, depends on their farm system
- If same farm system, could operate under existing FEP (might need some tweaks)
- If different farming system, purchaser obtains a new FEP before take over and operates under that FEP from day one on the farm (could be condition of sale and purchase agreement etc)

CFEP reviews performance against FEP

Incentives to Perform/Improve
