The council may fix charges relating to its functions and responsibilities under Section 36 of the Resource Management Act 1991. An outline of current policy and charges is provided below.<sup>(19)</sup>

## Application charges

### Changes to policy statements and plans (section 36(1)(a))

When assessing applications for the preparation of, or changes to policy statements or regional plans, the council will:

- charge applicants actual and reasonable costs
- require applicants to pay a \$500 deposit per application or a deposit of up to 50 per cent of the estimated costs of the council carrying out its functions in relation to such applications
- require applicants or their agent to pay for the costs incurred on an ongoing basis.

### Resource consent application processing<sup>(20)</sup> (section 36(1)(b))

For carrying out its functions in relation to the receiving, processing and deciding on resource consent applications (including assessment of application for certificates of compliance) and for considering and deciding on changes to or reviews of consent conditions and transfer of consents, the council will:

- charge applicants and consent holders actual and reasonable costs
- fix specific amounts to be charged for specified consents (see table below) and require applicants and consent holders to pay the full charge prior to work commencing on the application or review
- require applicants or consent holders, where a specific amount has not been fixed to pay a deposit of up to 50 per cent of the estimated costs with a minimum deposit of \$1,000 prior to consideration of the application or review, with the balance of the costs to be paid on a regular basis as costs are incurred
- require applicants or consent holders, where a specific amount has not been fixed, to pay the actual and reasonable costs of the processing of the application as determined, according to the following formula:

Charge = (staff time x charge rate<sup>(21)</sup>) + administration fee + direct costs including disbursements + notification and hearing costs

However, actual charges may vary, depending on the complexity of the environmental issue involved and the process to be followed.

<sup>21</sup> Refer to staff charges table at the end of this section.

## Annual consent holder charges

### Consent administration charge (section 36(1)(c))

The resource consent annual administration fee contributes to the cost the council incurs on undertaking its consenting and monitoring functions required under the Resource Management Act 1991. This includes maintaining consent and compliance information, updating consent status, processing consent surrenders and expiries, annual charge enquiries as well as general oversight of the consenting and monitoring activities of the council. This charge is the same for all categories of resource consent.

### Information gathering, research and data monitoring (section 36(1)(c))

A scale of charges will be used for charging different classes of consent holders for information gathering, research and data monitoring, and for the exercise of resource consents

A specific amount will be charged across all classes of consents for state of the environment monitoring associated with the effectiveness of policy statements and plans.

Data monitoring does not cover site specific consent compliance monitoring which is charged on an actual cost basis, except in relation to consents to take water for farm dairy purposes (i.e. milk cooling and shed washdown purposes) where a fixed charge applies as described below.

### Consent compliance monitoring

All monitoring of compliance with consent conditions, excluding farm dairy water take consents, will be charged on an actual cost basis.

Actual and reasonable costs for monitoring consent compliance will be directly charged according to the following formula:

**Charge = (staff time x charge rate<sup>(22)</sup>) + direct costs including disbursements**

Consent holder or their agent will pay for costs incurred on an ongoing basis as they occur, unless otherwise agreed by Waikato Regional Council.

Where consent is held to take water for farm dairy purposes, an annual charge of \$60 applies, which is included as part of the annual consent holder charge. This fee applies so long as monitoring determines that compliance has been achieved. If the consent holder is found to be non compliant, any costs in addition to the \$60 fee will be directly charged in accordance with the above formula.
