

Example of planning template

- used by Jo & Rachael at Hauraki Plains College – Secondary Schools Tour. Ideas sourced from the Learning Action Guide.

Step 1: Brainstorm together						
What environmental issues do we see at our school or in our community?		What do we care deeply about?		What would we love to change or improve?		What is already working well?
Step 2: Group Common Themes						
Water 	Energy 	Biodiversity 	Eco Building 	Climate 	Kai 	Waste 
Step 3: Choose focus area						
What’s most important or urgent?		What’s realistic without time, people and resources?		What are we most excited about?		What will make the biggest impact?
